## Information Disclosure Statement

Assistant Commissioner for Patents  
Washington, D.C. 20231

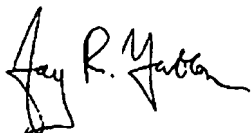

Sir:

Attached is a completed substitute form PTO-1449A (1 sheet patent documents). Also attached is the foreign patent reference cited thereon. An electronic information disclosure was filed earlier today containing three U.S. Patents. Today's disclosures supplement the information disclosure filed when this application was entered into the U.S. national stage. Following are comments on this reference cited pursuant to Rule 98:

JP 23,560 was cited by examiner in a related case (US 10/063,533), and in applicants' view is not very pertinent to the present case. It is nevertheless cited for completeness and to make of record all references that applicant has become aware of to date in connection with all related prosecutions in the US and abroad.

None of the references filed today anticipate or render obvious, the disclosures and claims of the present application.

Very truly yours,

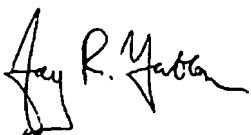

Jay R. Yablon  
Registration # 30604
